A Note from the Nurse

We have gotten off to a great start this year. I would like to say a BIG THANK YOU to everyone for such a warm welcome.

There are several questions that have arisen this first month of school that I would like to address.

- I want to remind everyone that we have many students and faculty with allergies to many different allergens. Animals that have animal dander cannot be at school. We have several students and staff with severe reactions to animal dander.
- I want to remind everyone early on that there can be no live Christmas trees or poinsettias in the building because of severe allergies.
- I would also like to clarify the medication at school policy. If your child brings medication to school, either the student or the parent should bring the medication to the clinic. Students are not permitted to carry medication in their backpacks or anywhere else. This is to protect the safety of all students.
- In the near future we will be starting the Walking Club back on Tuesday and Thursday mornings before school. If any parents are interested in helping, please call me at 860-5316. A letter will be coming home soon.

Please feel free to call me anytime at 860-5316.

Davidson Academy's High School Theater Presents "Charlotte's Web"

"Charlotte's Web" is a tale of friendship between a pig named Wilbur and a little gray spider named Charlotte based on the book by E.B. White.

The tale teaches about humility, trust, the power of helping others, and the delicate nature of friendship. It also reveals how the lives of those we love will end someday, but life regenerates with zealous beauty through spirit and one's offspring. The twists and turns make this an exciting story, but it is the warmth and depth of emotions interwoven to make the narrative an enduring one. A lesson on the importance of friendship is told with a light touch of wry humor.
